What will your investment do?

Growing up in today's world isn't easy for anyone. For many kids in our community, it is even tougher than you might think. But with the help of Boys & Girls Clubs of Rochester, our Club members are beating the odds:

Club members are **more likely** to abstain from alcohol and drug use than teens nationally

50% of regularly attending teen members volunteered in the community at least once per month

Club members in the 2017 graduating class show **more interest** in STEM careers than their peers nationally, especially among girls

Less than **2%** of our members have ever been involved in any type of juvenile delinquency offense

Club members report **higher grades** than their peers nationally

The investment you make will be used to provide youth with activities designed to ensure they are on track to succeed in school and graduate, demonstrate good character and live a healthy lifestyle.
